| Photocopying of lab results (per page)                      | \$1.00  |        |

## QUALITY HEALTH CARE, PRICELESS !!

\* If an immunization/TB test is requested by a patient for admission or continuation in a day care or pre-school program or a school, community college, university or other educational institution or program as evidence of immunization status, or the test is required to satisfy a condition of being admitted to a Long Term Care facility, then the test and completion of an immunization status form/report are insured by OHIP. This includes situations where a student requires a test for a work placement (e.g. co-op program, internship, etc.) and is a required component of the student's curriculum.
